

NENTICO LODGE INSIGNIA LIST

The cataloging in this memorabilia list is a product of the Nentico Lodge History Committee and the Nentico 100th Anniversary Committee and is the best attempt at honoring the Lodge's past and future under the guidance in accordance with PatchVault which says, "The Lodge itself (or the main collectors of that Lodge) should provide the guidance on proper numbering whenever possible and the listing should be as complete as possible, including listing variations and unofficial/fake/etc items." The word guidance is used on purpose here, as the Nentico committee did not completely agree with all of the changes that the OAIG has recommended or of those from outside the lodge who wished to impose their own opinions regarding lodge issues. Thus, the lodge's cataloging of insignia differs from other lists.

This listing has a companion piece, "The Nentico Lodge Memorabilia Guide". The memorabilia guide contains pictures of each issue as well as detailed stories on Nentico's memorabilia.

List Issued Date: July 31 - 2022 REVISION #5

General Listing Comments:

Regarding Neckerchiefs Listing:

X-1, X-2 & X-3:

Starting in the 1946 to about 1960 Nentico's first three issues were totem patches, 12 X-1, X-2 and X-3 which were designed to be placed on a neckerchief. This was indicated in the lodge By-laws. With that said, no mention of neckerchief color or design was defined. Currently there are a number of different style and color neckerchiefs can be identified with one of these patches attached. There are at least three different color and designs with X-1 attached and the same can be said for X-2. There are over a dozen different examples with X-3 attached. As the committee researched and developed this listing it could not find hard documented proof regarding any of the handmade neckerchiefs. There are a number of anecdotal stories regarding a number of these neckerchiefs, some from very reliable sources. Until such time as we have verifiable proof with the handmade neckerchiefs, the committee decided that N-1 Silk Screen would be our first official neckerchief issue.

Former N-2.5:

Upon further review the committee felt that since there is only one know issue of what was cataloged as N-2.5 (Red & White) stripe with point at the top that this neckerchief should be relisted as a "Special circumstances" issue.
